ROBERT D. LIPSCHER
ADMINISTRATIVE DIRECTOR OF THE COURTS

STATE HOUSE ANNEX
CN 037
TRENTON, NEW JERSEY 08625

TO THE HONORABLE CHIEF JUSTICE

AND JUSTICES OF THE SUPREME COURT:

Submitted herewith is the Statistical Supplement to the Annual Report of the Administrative Director of the Courts for the court year September 1, 1979 through August 31, 1980.

The *Annual Report*, published previously in a separate volume, contains full narrative coverage of the activities and accomplishments of the court system during the court year, as well as a brief statistical digest highlighting work load activities.

This Statistical Supplement contains detailed statistical information concerning utilization of judge time and the operation of New Jersey's courts, and is of particular interest to trial court managers as well as persons and agencies interested or involved in the operation, planning, and budgeting of the judicial system. A whole host of detailed information concerning the operation of programs and trial courts in each county is contained herein.

A separate publication, *Proceedings in the Municipal Courts*, contains detailed statistical data on the work of New Jersey's 520 municipal courts and the County District Courts that exercise concurrent jurisdiction.

The extraordinary efforts of all who participated in the collection and preparation of this information is gratefully acknowledged.

Respectfully submitted,

Robert D Lipscher

STATISTICAL OVERVIEW AND JUDICIAL WORKLOAD

Statistical Overview

The demand for judicial resolution of disputes increased again this year. The total volume of cases brought during court year 1980 (September 1, 1979 to August 31, 1980) numbers 655,517 and stands at the highest level in New Jersey's history. For every 11 inhabitants of the State there has been one complaint filed in court this year exclusive of the municipal courts.

The Judiciary mounted a major effort to meet this heavy demand for services. Chief Justice Wilentz redirected court goals from emphasis on moving older cases to the avoidance of backlog in the first instance. Thus the goal set for the year was to match filings with an equal number of terminations.

Filings this year increased by 4.6%, but the percentage increase in terminations was double that or 9.2%. The result was that this year's program succeeded better than expected. Not only did the courts clear their calendars by matching terminations with filings, but they also cut into the backlog by more than 20,000 cases, reducing it by over 9%.

The impressive results of this year's work are set forth below.

CASELOAD

	1979	1980	% Change
Added	626,506	655,517	+ 4.6
Terminations	618,969	675,835	+ 9.2
Pending	212,790	192,472	- 9.6

Almost all vicinages contributed to the success of the effort. Backlog reduction occurred statewide, and affected most calendars. As the data below show, pending cases were reduced in seven of 10 dockets. Even those dockets which did not clear this year came very close to so doing and in the process showed improved performance levels. Overall, the calendar clearance program sparked or renewed case management initiatives in every court in every county. It marked a successful beginning of a major attack on the difficult and deep-seated problem of eliminating backlogs and delays from the court system.

CASES PENDING by CALENDAR 1979 • 1980

	1979	1980	% Change
Civil	58,759	59,799	+ 1.8
Criminal	29,495	29,309	- 0.6
General Equity	3,114	3,118	+ 0.1
Matrimonial	7,272	5,655	-22.2
Juvenile Del. & JINS	15,682	13,644	-13.0

Superior Court Appellate Div.	5,380	5,034	- 6.4
Supreme Court	122	131	+ 7.4

In the five years preceding 1980, terminations had fallen short of filings, leaving a backlog of cases to be dealt with in succeeding years. With terminations of 675,835, a 9.2% increase over 1979, this year's performance reversed that pattern of backlog growth. The table below shows the percentage of filings terminated since 1975.

	Filings	Dispositions	% Filings Terminated
1975	513,801	506,741	98.6

79	626,506	618,969	98.8
80	655,517	675,835	103.1

In 1980, pending cases were reduced by 20,318, the greatest one-year reduction in the 32-year history of the modern court system. This year marks the first time in six years, and only the eighth time since 1948, that the courts were able to reduce backlog.

NEW JERSEY COURT SYSTEM TOTALS 1975-80
Filings • Dispositions • Pending

Between 1951 and 1980, filings have mushroomed from 143,551 cases to the present level of 655,517. It is interesting to trace the source of this growth. In 1951, the first year for which full court data is available, there were approximately 30 filings per thousand of population. During the 1950's the population of New Jersey grew by 25% (or 1.2 million); however, case filings grew even faster (plus 46%), so by 1960 there were 261,246 filings, or 35 filings per thousand of population. In the decade of the sixties, while population growth slowed to 18% (or 1.1 million), rapid caseload expansion continued, increasing by 43% to 374,404,or a rate of 52 filings per thousand. Finally, in the past 10 years, during which the population of the State stabilized (up only 2.3%, less than 0.2 million), cases filed jumped another 75.1% to the current total, or a rate of 89 filings per thousand.

Two important factors about filings in the New Jersey court system can be seen. First, population increases have not been the driving force behind caseload growth. Were this so, court filings would have stabilzed as the population of the State leveled off during the past decade. The filing rate of 30 filings per thousand in 1951 has nearly tripled to 89 per thousand in 1980. In one sense, the heavy reliance on the court is a tribute to the institutional success of the Judiciary during this period.

CASES ADDED to CALENDAR 1951 • 1960 • 1970 • 1980

COMPOSITION OF THE CASELOAD

The composition of the caseload has changed markedly over the years to reflect new filing trends. The fastest growing calendars have been those of the Juvenile and Domestic Relations, Matrimonial, and Appellate Courts. The Juvenile and Domestic Relations Court calendars have grown more than tenfold from 15,901 cases in 1951 to 185,611 cases in 1980, an increase of 1,067%. The Juvenile and Domestic Relations Court is now the second largest volume component of the court system.

The Matrimonial calendar also has exhibited enormous growth during the past decades. In 1951 there were 5,273 matrimonial cases on the calendar. This number now stands at 24,849, an increase of 371%. Combined, the family-related courts (Matrimonial and Juvenile and Domestic Relations) presently constitute nearly one-third of all filings compared with 15% several decades ago. While more liberalized divorce laws enacted in 1971 have contributed to this growth, more

* Criminal cases added 1952 figures

significant factors are growth in juvenile crime as well as less stable family units (and higher illegitimate birthrates) which have caused the citizenry to seek court help more frequently for resolution of family-related issues.

Conversely, there has been a reduction in the prominence of the District Court within the court system. In the 1950's District Court filings accounted for approximately 75% of all cases filed. Despite enormous increases in District Court filings since then, (from 107,995 in 1955 to 353,917 in 1980, an increase of 228%) they now account for only 54.0% of all cases filed during 1980.

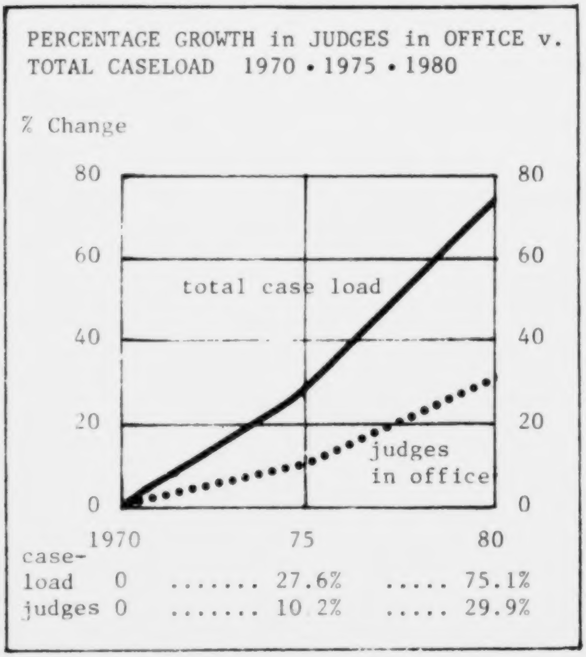
The number of appeals filed has also greatly increased over the past decades.

In 1951, a total of 642 appeals were filed compared with 5,054 appeals in 1980, an increase of 687%. Since 1970 alone, the number of Appellate Division cases filed has more than doubled.

The Supreme Court calendar, largely controlled by the Court, has grown more slowly during the past decades. In 1951, 158 cases were filed in this court of last resort, while in 1980, 232 appeals were added (an increase of 47% over 1951). Since 1970, the ratio of petitions disposed of to appeals disposed of has increased from 2½:1 to 5:1, indicating that the State's highest court has become twice as selective in accepting discretionary appeals.

Judicial Workload

During the past decade, New Jersey judges, with only modest increases in judicial strength, have faced sharply increasing workloads. Total cases added in the New Jersey court system increased from 374,404 in 1970 to 655,517 in 1980, an increase of 75%. However, as the graph below shows, the number of judges in office has increased by less than 30%.



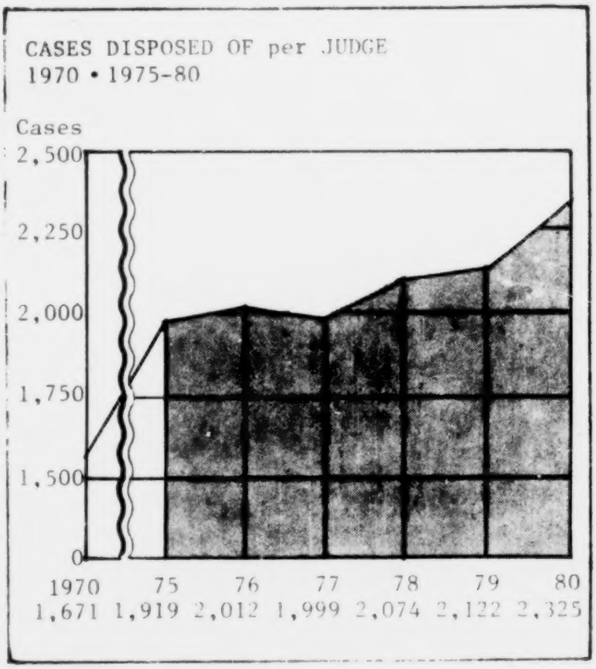
PERCENTAGE GROWTH in JUDGES in OFFICE v. TOTAL CASELOAD 1970 • 1975 • 1980

Because cases added have grown more than twice as fast as judicial strength, on average, each judge today must handle significantly larger caseloads than judges ten years ago.

The sharply growing caseload has necessitated increased judicial productivity in order to keep pace with the inflow of cases. Cases disposed of per full time judge in office* increased from 1,671 in 1970 to 2,325 in 1980--an increase of 39.1% in per judge production during the decade.

It is greater judicial productivity that led to the 1980 backlog reduction achievement. Judicial productivity in 1980 increased by 10%, compared to the 3.9% average of the decade.

It is noteworthy that this backlog reduction was achieved without new resources being added to the court system in 1980. There were five fewer judges available to hear non-Tax Court matters this year than last. The 2,325 cases disposed of per judge during 1980 was 203 more cases per judge than in 1979. This figure sets a judicial productivity record.



CASES DISPOSED OF per JUDGE 1970 • 1975-80

---

*For meaningful comparison to 1980, the figure is exclusive of the Tax Court judges and dispositions since there was no Tax Court in the comparison years. The 1980 figure represents cases disposed of per average number of judges in office per court day. The 1975 and 1970 figures represent cases disposed of per full time judge sitting at the close of the year.

GROWTH IN AUTHORIZED JUDGESHIPS BY COURT

The number of judges authorized is always higher than judges in office due to death, resignation and other reasons for vacancies in office.

BENCH HOURS

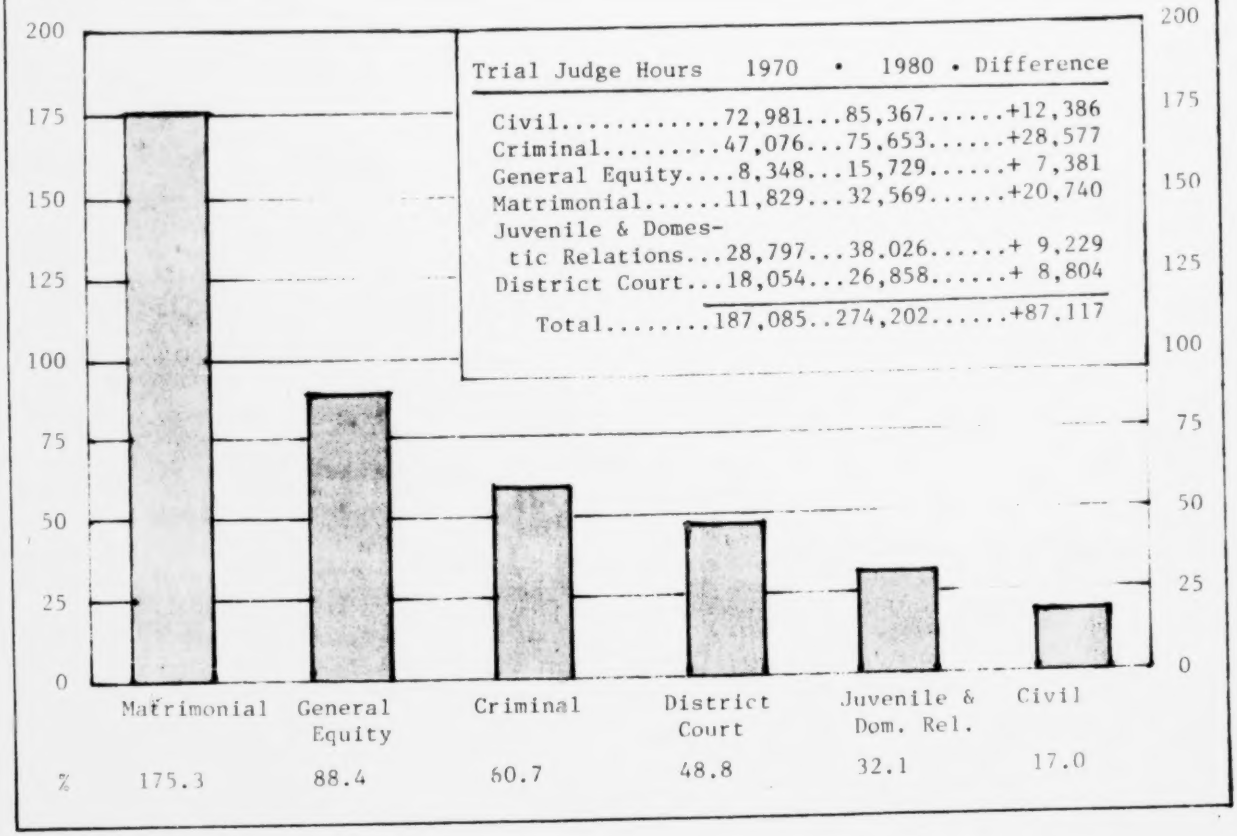
During the past decade total judge hours on bench and in settlement have jumped from 187,085 to 274,202, an increase of 87,117 hours. The greatest percentage growth came in hours devoted to the Matrimonial Court which rose from 11,829 in 1970 to 32,569 in 1980, an increase of 175.3%. General Equity hours have nearly doubled, increasing from 8,348 to 15,729, an 88.4% hike.

The Law Criminal calendar represented the third highest percentage increase, now totaling 75,653 compared with 47,076 in 1970, up 60.7%. Judge hours required in District Court have grown by 48.8% since 1970. Juvenile and Domestic Relations Court hours have increased by 32.1% while Law Civil hours have increased only 17%.

Of the 87,117 additional trial judge hours in 1980 over 1970, the Criminal calendar received the largest portion--an additional 28,577 hours (32.8% of total additional judge time). Matrimonial Courts received the second greatest increase, 20,740 hours (23.8%), Law Civil Courts received 12,386 hours (14.2%), and the remaining Superior Court calendar, General Equity, received 7,381 hours (8.5%).

The State's two highest volume courts showed increased hours of 9,229 for Juvenile and Domestic Relations (10.6% of the total increase), while District Court received 8,804 hours (10.1%).

PERCENTAGE INCREASE in TRIAL JUDGE HOURS between 1970 & 1980



Trial Judge Hours	1970	1980	Difference
Civil	72,981	85,367	+12,386
Criminal	47,076	75,653	+28,577
General Equity	8,348	15,729	+ 7,381
Matrimonial	11,829	32,569	+20,740
Juvenile & Domestic Relations	28,797	38.026	+ 9,229
District Court	18,054	26,858	+ 8,804
Total	187,085	274,202	+87.117

TRIALS

There are fewer civil and criminal cases being tried, while judge hours devoted to these calendars have increased substantially. Criminal trials have fallen from 3,516 to 2,403 since 1970 (a decrease of 31.7%) at the same time that judge hours spent on criminal matters have increased by 60%. Civil trials have fallen from 5,681 in 1970 to 4,299 in 1980 (nearly one-fourth), while bench hours increased by 17%.

The General Equity calendar is the only time-intensive calendar that has exhibited a net increase in trials, 734 to 816 (an increase of 11.2%) since 1970. However, in the past ten years, judicial hours devoted to the General Equity calendar have increased by 88.4%.

With trials consuming a smaller portion of judge time in Criminal, Civil, and General Equity calendars, judges are devoting more time to hearing motions, seeking settlements and conducting hearings other than trials.

On the other hand, the growth in Matrimonial trials conducted from 10,722 in 1970 to 25,562 in 1980 (+138.4%) was nearly commensurate with the increase in judge hours devoted to Matrimonial matters. Since 1970, judicial hours devoted to the Matrimonial Calendar have grown from 11,829 to 32,569 -- an increase of 175.3%.

There are no formal trial proceedings on juvenile matters and the most analogous figure to trials is the number of hearings on juvenile matters completed during the year. In 1970, a total of 74,325 Juvenile and Domestic Relations complaints were disposed of by trial (including Domestic Relations initial complaint and enforcement hearings). In 1980 this total has risen to 124,345, an increase of 67.3%. During the decade the number of Juvenile and Domestic Relations bench hours has increased from 28,797 to 38,026, an increase of 32%.

In the County District Courts the number of cases tried has increased more slowly than bench hours. In 1970, 53,636 District Court cases were concluded by trial, and by 1980 that figure had increased to 60,441, an increase of only 12.7%. Trial judge hours devoted to District Court matters have increased from 18,054 in 1970 to 26,858 in 1980, an increase of 48.8% -- far greater than the increase in cases concluded by trial.

MOTIONS

During the past decade, total motion activity (contested and uncontested) has more than doubled. However, as the table below indicates, the increase in motions activity varies significantly among courts*.

The three divisions of the Superior Court which require the greatest average judge time per disposition (Law Civil, Law Criminal, and General Equity), have experienced a staggering 134.4% increase in motion activity over the past ten years. By comparison, dispositions from these three intensive judge-time calendars have increased only by 46.9%. This means that motion activity has grown at nearly three times the pace of dispositions during the decade. Further, it is clear that the proportion of total judge hours devoted to motions has increased significantly during the past ten years.

The increase in motion activity has been the greatest on the Criminal calendar. The 43,501 criminal motions heard in 1980 represent an increase of 248% over the 12,507 motions heard in 1970. On the Civil calendar of the Superior Court, motion activity has grown from 38,892 in 1970 to 80,612 in 1980, an increase of 107.3%. The growth in motions heard on the Equity calendar has been almost as great. The 9,737 motions heard in 1980 represent an increase of 102.3% over the 4,814 motions heard in 1970.

In the Matrimonial courts, the use of motions (+176.3%) has closely paralleled the increase in dispositions (+153%) since 1970. During the past ten years, motion activity in the County District courts has shown a net decline of 22.2% while dispositions increased 76.5%.

SETTLEMENTS

Statistics are presented here on the number of civil case settlements achieved with the aid of court, and the time spent by judges in settlement conferences during the 1980 court year as compared with the 1975 court year.

Focusing on the Civil and General Equity courts (the most time-intensive calendars), there have been substantial increases in both the amount of judge time spent on settlement conferences and the number of settlements achieved with the aid of court before trial. On the Civil calendar of the Superior Court, judges are devoting 29.1% more time in settlement conferences than they were in 1975; however, the number of settlements achieved has increased at a faster pace, from 8,435 to 12,668, an increase of 50.2%. On the General Equity calendar, time devoted to settlement conferences has increased from 867 hours in 1975 to 1,830 hours in 1980--an increase of 111% but the number of cases settled with the aid of court has increased only from 368 to 490 -- an increase of 33.2%. In total, the growth in settlements achieved from these two calendars (+49.5%) has outstripped the growth in judge hours devoted to settlements (+33.8%) since 1975.

The growth in settlements achieved (Matrimonial +369.8% and District Court +22.6%) on the two calendars requiring less judge time per disposition has nearly doubled the growth in settlement hours on these courts (Matrimonial +182.2% and District Court +13.3%). However, the number of settlements achieved constitutes only a small percentage of total dispositions for each of these courts.

1/ Data on Cases Pending as of August 31, 1979 differs from the data published in the Annual Report for 1978-79 because of changes due to physical inventories and recounts in the counties during 1980.

2/ There were 31 appeals certified during 1979-80 and 12 appeals during 1978-79. The number of appeals certified from the Appellate Division before calendaring may not agree with the number of certifications received by the Supreme Court due to variances in case classification and docketing procedures.

3/ Does not include data on cases filed and disposed during 1978-79 for the New Jersey Tax Court which was instituted effective 7/1/79.

* Data on "Cases Pending" as of August 31, 1979 differs from the data published in the Annual Report for 1978-79 because of changes due to physical inventories and recounts in the counties during 1980.

1/ There were 31 appeals certified during 1979-80 and 12 appeals during 1978-79. The number of appeals certified from the Appellate Division before calendaring may not agree with the number of certifications received by the Supreme Court due to variances in case classification and docketing procedures.

2/ Cases added and cases disposed of include appeals certified by the Supreme Court before calendaring.

3/ Does not include data on cases filed and disposed during 1978-79 for the New Jersey Tax Court which was instituted effective 7/1/79.

*Includes small number of cases transferred from the District Court.

**Weighted cases are computed by dividing the number of judge hours on the bench and in settlement conference by the total number of cases disposed of. The result is the average number of judge hours needed to dispose of the cases. Weights were computed on the basis of hours and dispositions during the year ending December 31, 1979.

* Data differs from report for the court year ending August 31, 1979, by +58 cases due to adjustments in caseload input from computerized docketing control system.

** The number of appeals certified from the Appellate Division before calendaring may not agree with the number of certifications received by the Supreme Court due to variances in case classification, cases consolidated or disjoined, and docketing procedures.

STATISTICAL TABLES PREPARED BY THE
CENTRAL APPELLATE RESEARCH STAFF
SEPTEMBER 1, 1979 to AUGUST 31, 1980

B

The primary function of the Central Appellate Research Staff is the preparation of in-depth legal memoranda on cases of intermediate complexity pending before the Appellate Division of the Superior Court. The objective is to provide the court with pre-decisional research which will be of assistance in the ultimate disposition of the appeals. As an adjunct to the research function the Staff collects and compiled statistical data related to the intermediate appellate process in New Jersey. The following tables represent the data collected for the 1979-1980 court year. They provide a wealth of information concerning the intermediate appellate court but no attempt will be made here to comment on the information beyond that which is necessary to explain or illustrate the purposes of the various tables.

For those who may be interested in comparing the information contained in these tables with the information compiled by the staff in prior years, it should be noted that Tables 3, 5 and 6 have again been eliminated. These tables last appeared in the 1973-74 report but thereafter it was determined that the relatively limited information provided by these tables did not justify the time and effort expended in collecting and compiling the data. The remaining tables have not been renumbered so comparison with prior reporting periods can be easily achieved.

Table 1 shows the time intervals from the point of an appealable decision, through the various stages of the intermediate appellate process and ultimately to decision by the Appellate Division. This year the time lapse intervals have been calculated upon the 3,738 appeals decided by the Appellate Division during the 1979-80 court year. Within Table 1 the cases are broken down into the categories of civil and criminal. "Quasi-criminal" matters such as disorderly persons offenses have been placed into the criminal category. Juvenile cases, being neither civil nor criminal, have been classified as criminal. Prior to the 1976-77 court year juvenile cases had been classified as civil. The change was made in an effort to keep in step with the tenor of the times. Table 1 is also broken down into appeals which were accompanied by a memorandum from the Central Appellate Research Staff ("Staff Processed") and those which were not. In using this table (as well as Tables 1A and 2) it is suggested that the median is probably the most meaningful measure of central tendency ("average").

Table 1A is a further breakdown of criminal cases in an effort to provide a significant comparison between the time lapse in staff-processed cases and non staff-processed cases. The middle column represents those appeals where the only issue raised was that the sentence imposed was excessive. Because of the relative ease with which these cases can be decided they are never accompanied by a staff memorandum.

Thus, Table 1A permits elimination of these cases when comparing staff-processed criminal appeals and non staff-processed criminal appeals.

Table 2 is essentially a further breakdown of one aspect of the time lapse between appealable decision and the opinion rendered by the Appellate Division. It sets out data on motions made to the Appellate Division for extensions of time in relation to the filing of briefs. Under the *Rules Governing the Courts of the State of New Jersey* an appellant has a 45 day period within which to file a brief, and once filed a respondent has 30 days to file an answering brief. *R*.2:6-11. Table 2 shows extensions granted to permit filing beyond the time limits specified in the rule. In certain appeals extensions are granted to both the appellant and the respondent or more than one extension may have been granted to either side. Therefore, although the Appellate Division granted a total of 1,347 extensions those occurred in only 1,066 appeals. All percentages relate to the 1,066 appeals where extensions were granted rather than to all appeals decided during the court year.

Table 4 is a breakdown of the types of cases which are appealed. It sets out the number of cases, the number of reversals and the number of affirmances in each of the 19 generic categories. The figures are also provided on a percentage basis with the "percent of total" relating to all appeals decided during the court year (3,738) and the other percentage calculations relating only to the specific category. The term "reversed," as used in this table, includes not only those appeals where the entire judgment was reversed but also those appeals where a judgment was modified, vacated or reversed only in part. This is done in an effort to reflect more accurately the instances where appellants were successful, although perhaps not on every issue raised.

It should be noted that in the 1974-75 report the category "Criminal Guilty Plea" contained only the appeals where the sole issue raised was the validity of the plea itself. The category was expanded starting with the 1975-76 report to include all appeals from guilty pleas regardless of the type or number of issues raised, the sole exception being appeals from guilty pleas where the only issue presented was a claim of excessive sentence. The latter type of appeal is currently contained in the category "Criminal Sentence Review Only."

Table 7 is a compilation of the issues raised on appeal in all cases decided by the Appellate Division during the court year. It shows not only the number of times a specific issue has been raised, but also the number of times any given issue was successful on appeal.

The second column from the left reflects the percentage computation of the number of times a specific issue was raised in the 3,738 appeals decided during the court year. For example, in 29.19 percent of all appeals decided, the appellants argued that the trial judges' or agencies' findings of fact were erroneous, inadequate or not supported by the evidence.

The fourth column from the left, on the other hand, is a percentage calculation of the number of times an issue was successful as against the number of times it was raised. Using the same example the table shows that the argument concerning the fact finding of the judge or agency succeeded 121 times although raised 1,091 times, for a "success rate" of 11.09 percent.

A word of caution is appropriate concerning any conclusions that might be drawn from the figures in the third and fourth columns. In some instances the Appellate Division will reverse a judgment based upon an issue not specifically raised. This reason for reversal is reflected in the third and fourth columns but not in the first column because the issue causing reversal was not specifically advanced by the appellant. In the vast majority of categories this variation will produce only a slight change in the statistics and the fourth column will give a reasonably accurate percentage in reference to the first column. In a few categories, however, this form of variation may be the reason for what appears to be an inordinately high percentage in the fourth column. See *e.g.*, "Plenary Hearing Needed."

Table 8 is a tabulation of the Central Appellate Research Staff's production over the 12 month period. It shows the cases worked on by the Staff during the 1979-80 court year, although not every case worked on was decided by the court during the same court year. In all probability, the cases prepared in June, July and August were not decided by the court until sometime during the 1980-81 court year. The major month-to-month fluctuations generally reflect variations in the number of attorneys on staff. During the 1979-80 court year the staff worked on 875 appeals.

* The great percentage of foreclosure cases are uncontested and are processed by the Superior Court Clerk without being added to the calendar.

** The Calendar is the list of cases which have reached issue. A case is added to the calendar when the first answer is filed.

*** Data differ from cases pending August 31, 1979 as reported in the 1978-79 Annual Report, because of transfers & recounts by the counties resulting from their periodic physical inventories and the discovery of other reporting errors by the counties during the course of the year.

**** As reported in the 1978-79 Annual Report. Subsequent recounts amounted to -15 cases pending as of August 31, 1979.

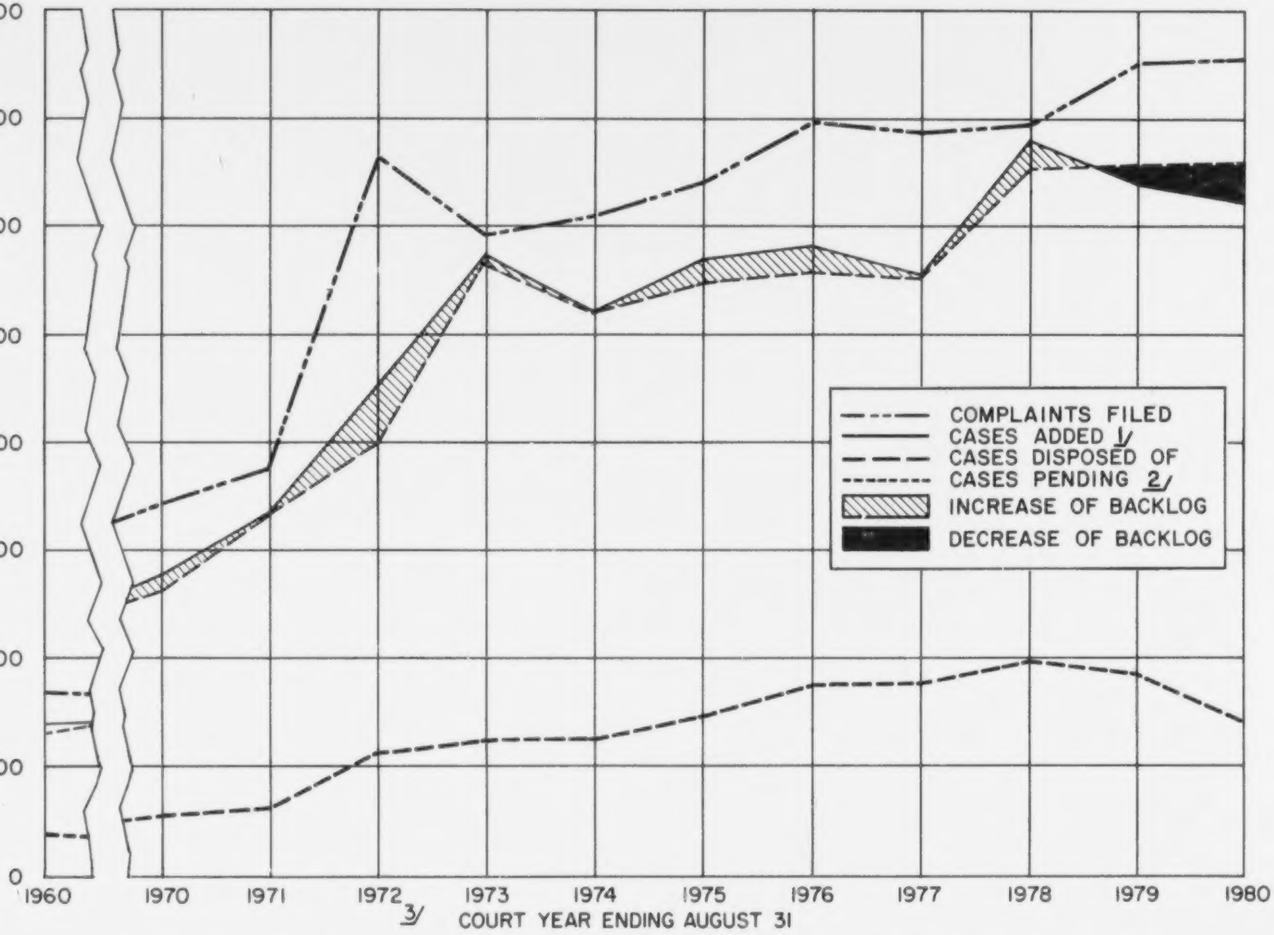
SUPERIOR COURT - MATRIMONIAL

COURT YEARS ENDING AUGUST 31
1970 TO DATE COMPARED WITH 1960



1/ MATRIMONIAL CASES ARE ADDED TO THE CALENDAR WHEN NOTICE OF APPROVAL FOR TRIAL UNDER R. 4:79-2 HAS BEEN RECEIVED, R. 4:36-2.

2/ AS REPORTED IN ANNUAL REPORTS FOR EACH COURT YEAR. NOT CHANGED FOR "RECOUNTS" AS A RESULT OF PHYSICAL INVENTORIES IN THE COUNTIES.

3/ THE SHARP INCREASE IN THE MATRIMONIAL CASE LOAD IN 1972 IS LARGELY ATTRIBUTABLE TO THE ENACTMENT OF NEW DIVORCE LAWS EFFECTIVE SEPTEMBER 13, 1971.

* A cases is added to the calendar only after compliance with R. 4:79-2 (Trial Fees) and, if applicable, R. 4:79-11 (Listing for Trial; Claims for Equitable Distribution of Property). R. 4:36-2.

** Data differ from cases pending August 31, 1979 as reported in 1978-79 Annual Report, because of transfers among counties and recounts by the counties from their periodic physical inventories and the discovery of their reporting errors by the counties during the course of the year.

*** As reported in the 1978-79 Annual Report. Subsequent recounts amounted to -40 cases pending as of August 31, 1979.

NOTE: The definition of cases added after the close of the 1979-80 court year has been altered due to changes in Court Rules.

* Data differs from cases pending August 31, 1979 as reported in the 1978-79 Annual Report, because of recounts by the counties resulting from their periodic inventories and the discovery of other reporting errors by the counties during the course of the year.

** As reported in the 1978-79 Annual Report. Subsequent recounts amounted to -183 cases pending as of 8/31/79.

1/ The calendar is the list of cases which have reached issue. A case is added to the calendar when the first answer is filed, R 4:36-2.

1/ An indictment is considered disposed of by jury trial if the drawing of the jury is started, even if thereafter the defendant pleads or the case is dismissed.

2/ An indictment is considered disposed of by non-jury trial if the opening is started or, if the opening is waived, the first witness is sworn.

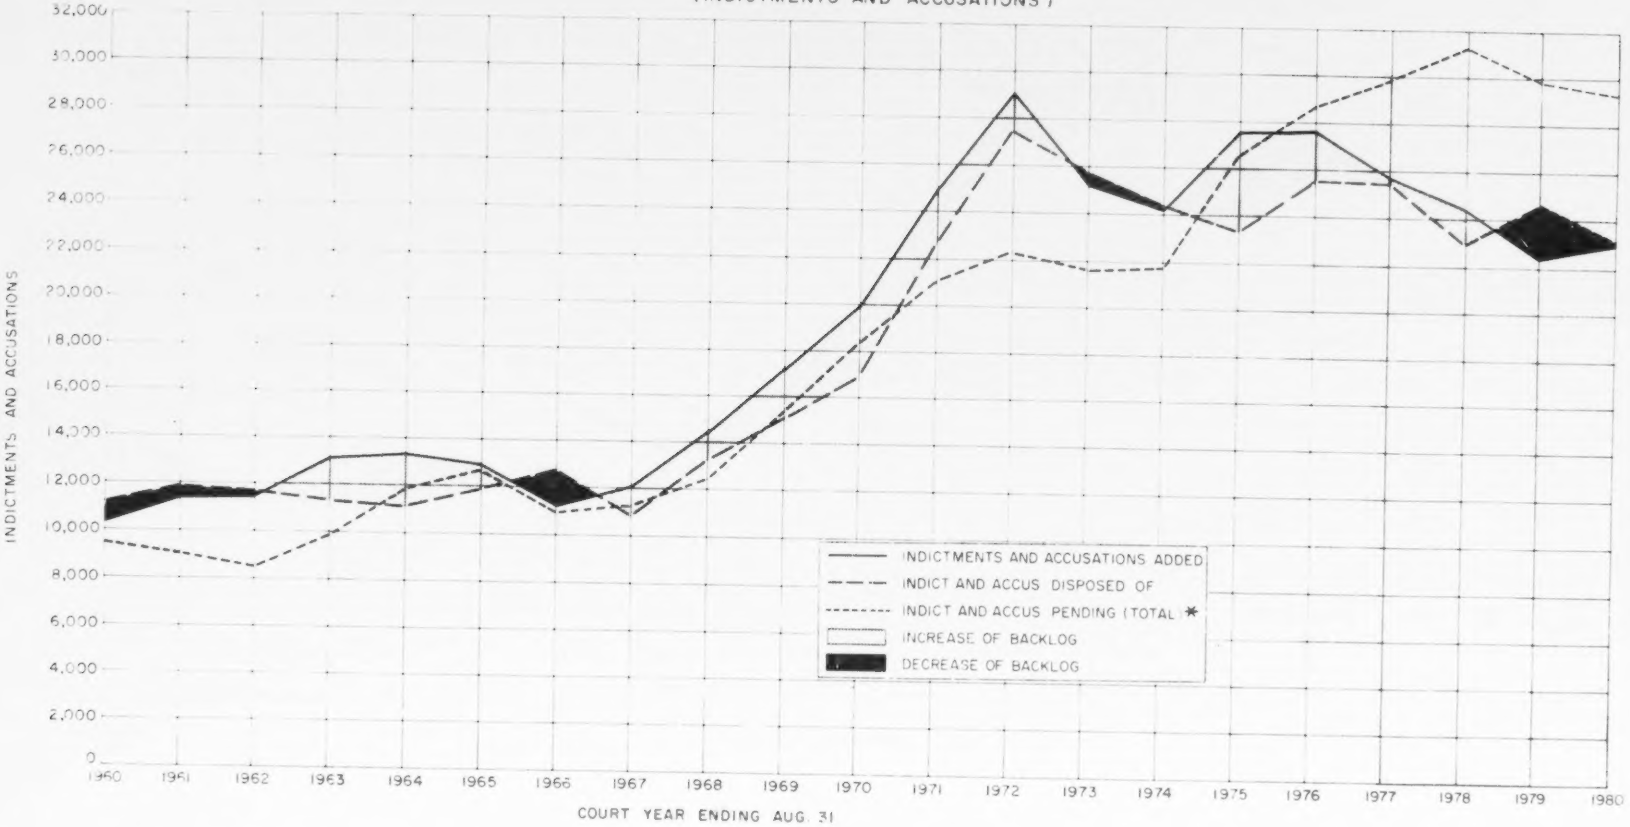
3/ Inactive cases are those so marked by order of the court as untriable for reasons beyond the control of the court or prosecutor; included are fugitives, John Does, defendants incarcerated in another state, etc.

* Data differs from cases pending August 31, 1979 as reported in the 1978-79 Annual Report, because of recounts by the counties resulting from their periodic physical inventories and the discovery of other reporting errors by the counties during the course of the year.

** As reported in the 1978-79 Annual Report. Subsequent recounts amounted to +103 cases pending as of 8/31/79.

SOURCE: Monthly Reports of the County Clerks.

SUPERIOR COURT, LAW DIVISION
(INDICTMENTS AND ACCUSATIONS)



* AS REPORTED IN ANNUAL REPORTS FOR EACH COURT YEAR. NOT CHANGED FOR "RECOUNTS" AS A RESULT OF PHYSICAL INVENTORIES IN THE COUNTIES.

NOTE: COMPARABLE DATA FOR PRIOR YEARS NOT AVAILABLE

NOTE: EFFECTIVE APRIL 1967, AN INDICTMENT OR ACCUSATION IS REPORTED AS DISPOSED OF EVEN THROUGH SENTENCE IS PENDING.

1/ An indictment is considered disposed of by jury trial if the drawing of the jury is started, even if thereafter the defendant pleads or the case is dismissed.

2/ An indictment is considered disposed of by non-jury trial if the opening is started or, if the opening is waived, the first witness is sworn.

3/ Inactive cases are those so marked by order of the court as untriable for reasons beyond the control of the court or prosecutor; included are fugitives, John Does, defendants incarcerated in another state, etc.

* Data differs from cases pending August 31, 1979 as reported in the 1978-79 Annual Report, because of recounts by the counties resulting from their periodic physical inventories and the discovery of other reporting errors by the counties during the course of the year.

** As reported in the 1978-79 Annual Report. Subsequent recounts amounted to -41 cases pending as of 8/31/79.

NOTE: For the purpose of this page, each defendant named on each indictment is counted as a separate case. For example, if A and B are indicted in one indictment containing five counts against each defendant, there are two cases: one against A and one against B. If A is indicted on four indictments, there are four cases against A. In other words, each indictment against each defendant constitutes a separate case.

1/ A case is considered disposed of by jury trial if the drawing of the jury is started, even if thereafter the defendant pleads or the case is dismissed.

2/ A case is considered disposed of by non-jury trial if the opening is started or, if the opening is waived, the first witness is sworn.

NOTE: For purposes of this report, the charges embodied against each defendant on each indictment or accusation are considered a separate case, for example, (a) if A and B are indicated in one indictment containing five counts against each defendant, there are two separate cases--one against A and one against B. If A is indicted on four indictments, there are four cases pending against A. In other words, each indictment against each defendant constitutes a separate case.

1/ For the purpose of this page, each defendant named on each indictment is counted as a separate case. For example, if A and B are indicted in one indictment containing five counts against each defendant, there are two cases one against A and one against B. If A is indicted on four indictments, there are four cases against A. In other words, each indictment against each defendant constitutes a separate case.

* Inactive cases are those so marked by Order of the Court as untriable for reasons beyond the control of the Court or Prosecutor included are fugitives, John Does, defendants incarcerated in another State, etc.

** As reported in the 1978 79 Annual Report. Subsequent recounts by the counties amounted to 41 cases pending as of 8/31/79.

* Data differs from cases pending August 31, 1979 as reported in the 1978-79 Annual Report, because of recounts by the counties resulting from their periodic physical inventories and the discovery of other reporting errors by the counties during the course of the year.

** As reported in the 1978-79 Annual Report. Subsequent recounts amounted to +143 cases pending as of 8/31/79.

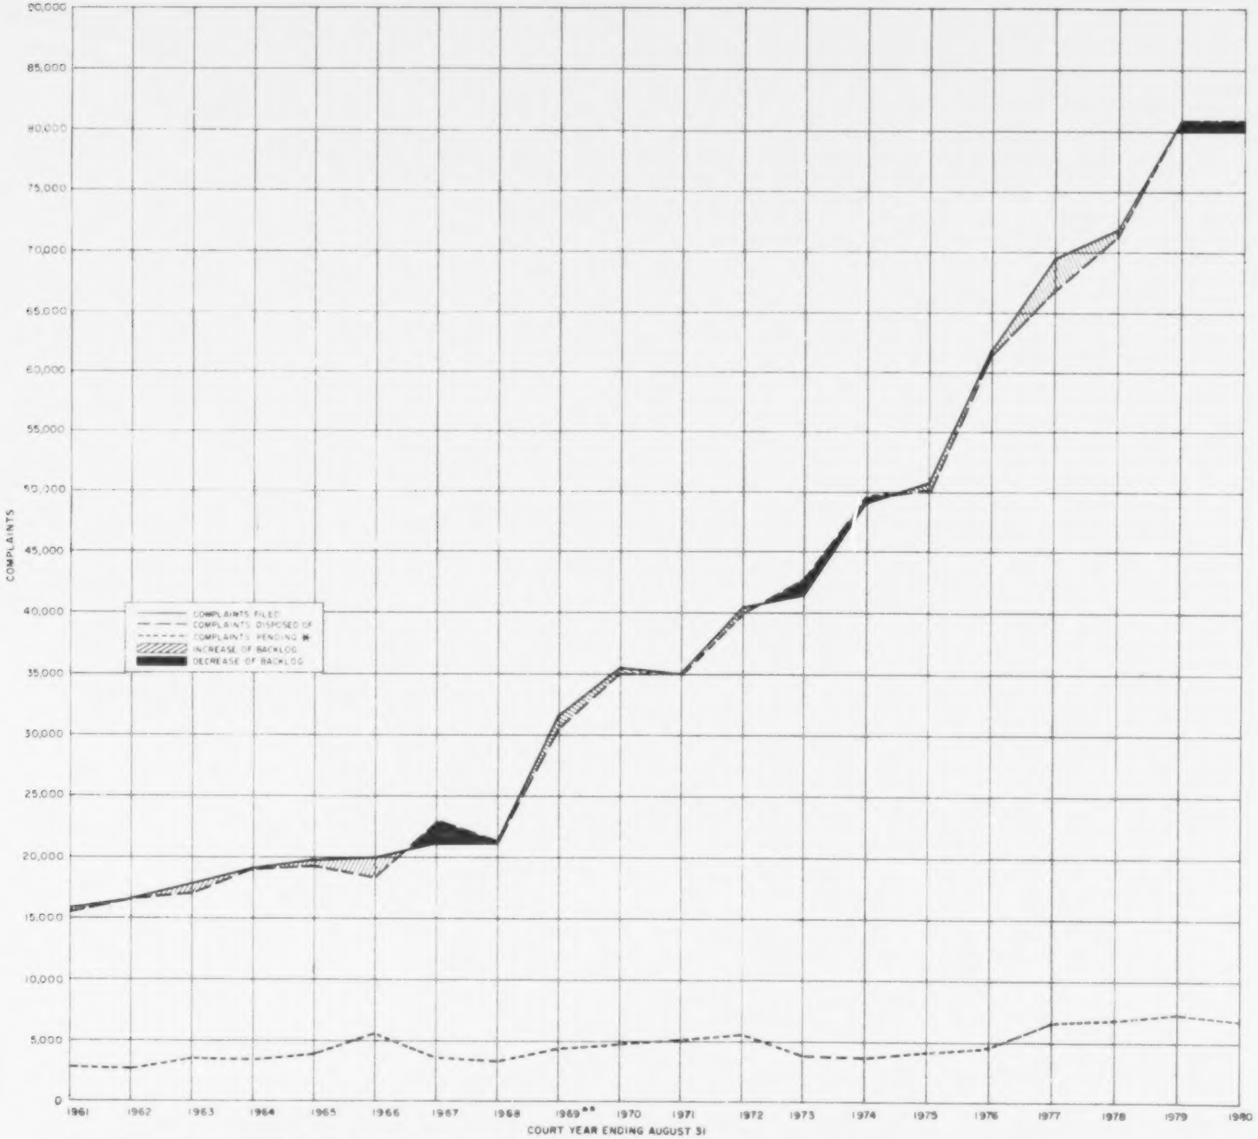
*DOMESTIC RELATIONS AND RECIPROCAL SUPPORT COMPLAINTS



* AS REPORTED IN ANNUAL REPORTS FOR EACH COURT YEAR. NOT CHANGED FOR "RECOUNTS" AS A RESULT OF PHYSICAL INVENTORIES IN THE COUNTIES

** REINSTATED CASES INCLUDED BEGINNING SEPTEMBER, 1968

JUVENILE SCHOOL STATISTICS PROJECT

This project began on September 1, 1977 and requires that county juvenile intake units and probation departments collect data as to the New Jersey primary and secondary level schools attended by juveniles charged with delinquency and juveniles alleged to be in need of supervision (JINS). The following data collection procedures were employed in each county during the 1979-1980 court term:

1. An intake officer or juvenile probation officer reviews each juvenile delinquency or JINS complaint to ascertain the juvenile delinquency charges or JINS allegations against the juvenile and the New Jersey primary or secondary level school (if any) and grade attended by the juvenile. If this school related information is not set forth on the juvenile complaint form the intake officer or probation officer obtains that information from the juvenile involved or his parents or custodian. For purposes of this project, a juvenile is not considered to be a student of a New Jersey primary or secondary level school if he had graduated from high school, has been expelled or has withdrawn from school or attends school outside this State.

2. Each month the county intake unit or probation department through the Trial Court Administrator's Office, sends to the Administrative Office of the Courts a report containing "by grade", "by school", and "by offense type" data with respect to charges and allegations contained in juvenile delinquency and JINS complaints filed that month.

3. The Administrative Office of the Courts reviews the monthly county reports to assure that they are complete and internally consistent. Computer-generated reports are then forwarded to the New Jersey Department of Education and State Law Enforcement Planning Agency where they are used for planning and program evaluation purposes.

Following below are computer-generated county and State reports for the period September 1, 1979 through August 31, 1980. Grade numbers appear across the top and offense types appear along the left-hand margin of each report. For example, the Atlantic County report reveals that during the period September 1, 1979 through August 31, 1980 there was one charge of forcible rape filed against a ninth grader attending school in that county. Data arranged by school and school district is available without charge upon written request to Steven Yoslov, Chief, Juvenile and Domestic Relations Court Services, Administrative Office of the Courts, CN 037, State House Annex, Trenton, New Jersey 08625.

A certain degree of caution is needed when reviewing these data. The data reflect the number of juvenile delinquency charges or JINS allegations filed against juveniles attending New Jersey primary and secondary level schools and not the number of complaints filed against such juveniles nor the number of such juveniles. Since the data are culled from complaints filed with the juvenile court against juveniles attending New Jersey primary and secondary level schools, the data understate the extent of juvenile delinquency and the number of JINS. For example, if an offense is committed but the police cannot ascertain who committed the offense, the police will not file a complaint. Furthermore, the police may take a juvenile into custody and refer the juvenile to a social service agency without filing a complaint. Finally, the data do not represent charges in complaints which are filed with the court clerk and not referred to intake for screening, reinstated by the court nor downgraded by the court from delinquency to JINS allegations.

JUVENILE AND DOMESTIC RELATIONS COURT INTAKE SERVICES

Statewide operations of juvenile and domestic relations court intake services are governed by the Supreme Court-approved Operations and Procedures Manual for Juvenile and Domestic Relations Court Intake Services (promulgated July 8, 1977). The Manual authorized the intake service concept and took cognizance of the fact that "the uniform and orderly development of juvenile and domestic relations court intake services...will assist the Supreme Court in the development of a Family Court, as a component of a unified and State-funded judicial system." The Manual required that each county establish an intake service by September, 1978, and that each intake service operate in compliance with its provisions.

Each intake service, which is staffed by trained probation officers and persons with particular expertise and/or experience from outside the probation service, serves as an arm of the Juvenile and Domestic Relations Court and acts on its behalf. Intake is responsible for monitoring admissions of juveniles to detention and shelter care facilities on a 24-hour-a-day, 7-day-a-week basis; screening complaints filed with the Juvenile and Domestic Relations Court; recommending the court calendar (counsel mandatory, counsel not mandatory) for those cases which are not diverted, transferred to another county or in which juvenile court jurisdiction is waived; recommending diversion through intake conferences or to juvenile conference committees and holding consent conferences in domestic relations cases.

Although the twenty-one county intake services provide administrative assistance to the Juvenile and Domestic Relations Courts, they are designed to divert from the juvenile court those first and minor juvenile offenders who do not require a court hearing but who may be in need of professional social services available in the community. Additionally, intake's monitoring of admissions to detention and shelter care facilities insures that such admissions are made pursuant to the Rules of Court and applicable statutes. Domestic relations intake enables all domestic relations complaints to be scheduled for consent conferences.

A juvenile complaint that comes to the attention of the Juvenile and Domestic Relations Court is screened by the intake service, which determines whether the offense alleged is serious enough to warrant a court hearing. This screening process requires the examination of existing court and probation records, as well as a discussion of the situation with the arresting officer or complaining witness. Subsequent to the screening process, first and minor offenders against whom allegations of delinquency have been made may be diverted from court and referred to a juvenile conference committee, which consists of representatives of various community groups appointed by the court to serve as an arm of the court in hearing juvenile cases. Juveniles alleged to be in need of supervision may be diverted through an intake conference, an informal session conducted by intake service staff and designed to counsel the juvenile and to direct the juvenile and his/her family to the appropriate service agency in the community. Most juveniles alleged to have committed a second minor offense are similarly diverted from court through the intake conference procedure.

Juvenile diversion alternatives enable first and minor offenders to avoid a court appearance and possible adjudication. These alternatives also provide Juvenile and Domestic Relations Court judges with more courtroom time to hear cases involving serious offenders, disputed or involved fact patterns or serious psychological and emotional problems.

Domestic relations complaints are similarly screened by the intake service and scheduled for a consent conference. These conferences, similar to an intake conference, are designed to resolve domestic relations disputes informally, without a court hearing. Where no resolution can be effected, the conferences assist the court in determining the amount of support payments and, when appropriate, making referrals to service agencies.

The following tables provide statistical information regarding intake service activities.

RESTITUTION BY JUVENILE OFFENDERS

The concept of restitution by a juvenile offender was approved by the Supreme Court in State in the Interest of D.G.W., 70 N.J. 488 (1976) and is supported by the Attorney General and the Public Defender.

The Office of Juvenile Justice and Delinquency Prevention of the federal Law Enforcement Assistance Administration provided funds for the implementation of a juvenile restitution program, operating consistent with the D.G.W. decision. During the 1979-80 court term, fourteen counties were involved in the implementation of the program, which commenced September 1, 1979.

The program enables juvenile court judges to order juvenile offenders to make monetary payments to victims, perform community services with all or a portion of the juveniles' pay being passed on to victims by the respective probation department, or if the juveniles and victims agree, order juveniles to provide services directly to victims. The juvenile restitution program is designed to provide an alternative to incarceration in some cases, to instill a sense of responsibility and accountability in juvenile offenders ordered to make restitution and to enable juvenile offenders who have committed property offenses or offenses against the person to restore victims' losses monetarily or symbolically. Every juvenile in the program makes restitution as a condition of probation.

Implementation of the program is the responsibility of restitution coordinators at the vicinage and county level. The coordinators, who are responsible for administering the program amongst the court, probation department and community agencies, are either State employees or probation officers on county payrolls whose salaries and fringe benefits are being reimbursed by the Administrative Office of the Courts.

The following table provides statistics as to restitution program activities.

* Data differs from cases pending August 31, 1979 as reported in 1978-79, because of recounts by the counties resulting from their periodic physical inventories and the discovery of other reporting errors by the counties during the course of the year.

** As reported in the 1978-79 Annual Report. Subsequent recounts amounted to -17 cases pending as of 8/31/79.

ANNUAL REPORT OF THE PRESIDING JUDGE
OF THE TAX COURT OF NEW JERSEY FOR THE
YEAR ENDED AUGUST 31, 1980

This report is submitted to the Chief Justice of the Supreme Court of New Jersey and published as a part of the Annual Report of the Administrative Director of the Courts pursuant to N.J.S.A. 2A:3A-24.

Introduction

The Tax Court of New Jersey has completed its first year of operation. During this year rules, procedures and forms were prepared and adopted. Eight Tax Court judges were appointed and have been handling cases within the Court's jurisdiction.

The Clerk of the Court was appointed by the Supreme Court and staff for the judges and the Clerk's Office were employed and trained. Physical facilities were established for the Clerk's Office in Trenton and for the Tax Court Judges in six locations throughout the state. As might be expected, this first year was a year of organization, training and orientation for the Judges and Court personnel. It was also a year of accomplishment as indicated by the disposition of 11,500 cases.

Objectives

The Tax Court was established by the Legislature as a separate court within the Judiciary pursuant to Article VI, Section 1, Paragraph 1 of the New Jersey Constitution. The enabling statute, N.J.S.A. 2A:3A-1 *et seq.*, requires the selection of judges having special qualifications in the field of taxation. These judges, equated in the statute with Superior Court judges, are given jurisdiction to grant legal and equitable relief so that all matters in contention can be completely determined.

The Court hears matters arising out of the administration of the New Jersey state and local tax laws. More than 90% of the cases seek review of local property tax assessment determinations of the twenty-one county boards of taxation. In addition, the Court reviews the determinations of the Director of the Division of Taxation in state tax matters, and reviews state and county equalization tables and the determinations of other government officials charged with administration of tax laws. These include the county recording officer, in the case of the realty transfer tax, and the Director of the Division of Motor Vehicles, in the case of the motor fuels tax. The Court provides a full hearing of each dispute and renders an opinion based upon specific findings of fact and conclusions of law.

Special treatment for the hearing of small claims cases (those where the amount in controversy or claim for refund for any year is

$2,000 or less) was provided for by the Legislature. Hearings in these cases are informal, the rules of evidence are not strictly applied and trials are scheduled at locations as close to the taxpayer's residence as possible.

The Court was established by the Legislature to afford taxpayers a prompt and impartial hearing and disposition of their dispute with the governmental taxing agency by a qualified body of judges. The stated objectives of the Tax Court are:

1. To provide effective, expeditious, inexpensive, convenient and equitable judicial review of state and local assessments.

2. To create a consistent, uniform body of tax law for the guidance of taxpayers and tax administrators to promote certainty in tax law and its application.

3. To make the decisions of the Court readily available to taxpayers, tax administrators and tax professionals.

4. To promote the creation of a broad, qualified and informed state and local tax Bar.

The Judges

Six Tax Court Judges began to hear cases in the second week of September, 1979. By March, 1980 the number of judges hearing the cases increased to nine (including one judge temporarily assigned from the Appellate Division). The eight Tax Court Judges are Michael A. Andrew, Jr., Richard M. Conley, David E. Crabtree, John F. Evers, John J. Hopkins, Anthony M. Lario, Lawrence L. Lasser and Marvin N. Rimm. Arthur J. Simpson, Jr., J.A.D., was assigned to the Tax Court for six months in 1980.

Each Tax Court judge is a specialist in tax litigation. Judges Evers and Lario had been judges of the Division of Tax Appeals. Judges Crabtree, Lasser and Rimm had been in private practice representing taxpayers in federal, state and local tax matters. Judges Andrew and Conley had been active in the representation of governmental taxing agencies at the municipal and state level and Judge Hopkins had been District Counsel with the Internal Revenue Service.

Three judges are graduates of Temple University School of Law, one is a graduate of Boston College Law School, two judges are graduates of Harvard Law School and two judges are graduates of Yale Law School.

The judges occupy permanent courtrooms and chambers in courthouses in Hackensack, Newark, New Brunswick, Camden and Mays Landing. The two judges assigned to Trenton maintain chambers in a temporary facility at 447 Bellevue Avenue and utilize the Supreme Court and Appellate Division courtrooms in the State House Annex for trials. These temporary Trenton facilities will be replaced by permanent Tax Court chambers and a Tax Court courtroom in the Justice Complex scheduled for completion in late 1981. During the past year Tax Court judges have also heard cases in Newton, Belvidere, Freehold, Brick Township, Morristown and Salem.

Publication of Opinions

The creation of a consistent body of state and local tax law for New Jersey requires the publication of the decisions of the Tax Court as a guide for taxpayers, tax administrators and tax professionals. Judges of the Tax Court are encouraged to prepare written opinions in cases presenting significant factual or legal issues. Although each judge renders his own opinions in the cases assigned to him, all judges meet monthly to discuss their decisions. During the year Tax Court judges rendered almost 100 written opinions, of which approximately 50 were approved for publication.

Some of these opinions laid down principles with respect to procedures for review. In Prospect Hill Apartments v. Bor. of Flemington, 1 N.J. Tax ___, 172 N.J. Super. 245 (Tax Ct. 1979), the Court strictly construed statutory filing time limits. In Horrobin v. Director, 1 N.J. Tax ___, 172 N.J. Super. 173 (Tax Ct. 1979), the Court applied its strict construction of statutory time limits to homestead tax rebate cases. See also Hashomer Hatzair, Inc. v. Tp. of East Windsor, 1 N.J. Tax ___, ___ N.J. Super. ___ (Tax Ct. 1980), for the same action on the time limit for filing a farmland assessment application and City of Salem v. Salem Cty. Board of Taxation, 1 N.J. Tax ___ (1980), for the same action on the time limit for contesting a county equalization table.

The Tax Court decided a number of cases dealing with discriminatory assessments. In *Greenwald v. Bor. of Metuchen*, 1 *N.J. Tax* ___, ___ *N.J. Super.* ___ (Tax Ct. 1980), the Court held that a taxpayer is not entitled to relief from claimed discrimination solely based upon proof of the assessments of neighboring properties. Rather, proof of the value of the taxpayer's property and the common level of assessment or absence of a common level must be established. The issue of relief from discrimination was the subject of Tax Court action in *Abe Gaynes t/a Marina Gardens v. Tp. of Edison*, 1 *N.J. Tax* ___ (1980), which action was affirmed by the Appellate Division.

The distinction between real property and personal property was dealt with in *Clarence L. Bostian, Jr., Franklin Tp. Taxpayers Assoc. v. Franklin State Bank and Tp. of Franklin*, 1 *N.J. Tax* ___, ___ *N.J. Super.* ___ (Tax Ct. 1980), and the action of the Tax Court was affirmed by the Appellate Division.

A number of opinions dealing with farmland assessment have begun to establish guidelines for qualification under the Farmland Assessment Act. *e.g.*, *Kugler v. Wall*, 1 *N.J. Tax* ___ (1980), *Bloomingdale Indus. Park v. Bor. of Bloomingdale*, 1 *N.J. Tax* ___ (1980) and *Plushanski v. Tp. of Union*, 1 *N.J. Tax* ___ (1980). Several opinions relating to the application of the Freeze Act have also provided instruction to taxpayers and assessors as to the application of this statute, *e.g.*, *Snyder v. Bor. of So. Plainfield*, 1 *N.J. Tax* ___ (1980), *Eckardt v. Sisler Enterprises*, 1 *N.J. Tax* ___, ___ *N.J. Super.* ___ (Tax Ct. 1980) and *Sirota v. Tp. of Howell*, 1 *N.J. Tax* ___, ___ *N.J. Super.* ___ (Tax Ct. 1980).

Opinions in exemption cases have supported the legal proposition that exemption statutes are to be strictly construed, e.g., Beth Israel Cemetery Ass'n v. Tp. of Woodbridge, 1 N.J. Tax ___ (1980) and Greenwood Cemetery Ass'n of Millville v. City of Millville, 1 N.J. Tax ___ (1980).

During the year the Court also dealt with a tax related case not within the jurisdiction of the former Division of Tax Appeals. This case, Clay v. City of East Orange, ___ N.J. Super. ___ (Tax Ct. 1980), involved an interpretation of the penalty provisions of the Tenants' Property Tax Rebate Act.

Tax Court opinions approved for publication are reproduced and distributed to libraries, law schools and governmental agencies. These opinions are also made available for distribution to others upon request. Summaries of these opinions are published in the New Jersey Law Journal. Tax Court opinions approved for publication by the Court will be published in an official report to be known as New Jersey Tax Court Reports. Advance sheets will be published every two months and a bound volume will be issued approximately once each year.

Education and Training

Beginning with the appointment of each judge, an educational process was begun to inform the judges of the substantive and procedural law relating to New Jersey state and local taxation. During the fall of 1979, the judges of the Tax Court met on a regular basis for the purpose of discussing the taxing statutes, federal and state constitutional issues, valuation techniques and the rules of evidence. Hon. William A. Dreier, J.S.C. participated in the discussion of the rules of evidence and Hon. Sidney Goldmann attended sessions with the judges to discuss opinion writing techniques. Materials were prepared for the discussion of issues commonly raised in Tax Court cases. Arrangements were made for Tax Court judges to participate in courses on real property valuation. A program of orientation and training was initiated for judges' law clerks and secretaries. The program of education and training of the judges and their staff will continue on a regular basis to insure that each judge is aware of current developments in the field of taxation.

Office of Clerk of the Tax Court

Tax Court administration is performed by the Office of the Clerk. At the Court's inception a plan was developed for the organization of the Clerk's Office. Personnel from the Division of Tax Appeals were transferred to the Tax Court, moved to 447 Bellevue Avenue, Trenton and integrated into the Clerk's Office organization. By the end of the first court year a working Clerk's Office staff had been organized and trained. The activities of the Tax Court Clerk were coordinated with those of the Offices of the Clerks of the Supreme Court, the Appellate Division and Superior Court. Procedures were established for the interface of Clerk's Office personnel with judges' staff in the locations throughout the state.

In December, 1979, Elaine B. Goldsmith, Esquire, was appointed by the Supreme Court as Clerk of the Court. Ms. Goldsmith came to the Court from the Executive Commission on Ethical Standards, where she was Executive Director. An able administrator and former practicing attorney, Ms. Goldsmith has played a major role in the organization of the Clerk's Office and the establishment of policies and procedures.

Transition from the Division of Tax Appeals

The legislation creating the Tax Court provided for an orderly transition for the processing of tax cases. In 1979 the Division of Tax Appeals had ten judges. One Division of Tax Appeals judge died in June, 1979. The remaining nine continued in office after July 1, 1979 for the purpose of completing cases heard by them but not decided. On June 30, 1979 there were approximately 27,000 cases pending before the Division of Tax Appeals, of which 2,180 were cases that had been heard but undecided. On July 1, 1979, approximately 25,000 cases were transferred to the Tax Court and the 2,180 heard but undecided cases were retained by the Division of Tax Appeals. From July 1, 1979 to December 31, 1979 the Tax Court Clerk's Office, with the assistance of Hon. Anthony M. Lario, a Tax Court Judge who had formerly been President Judge of the Division of Tax Appeals, administered the disposition of the cases retained by the Division of Tax Appeals. On December 31, 1979, the 411 cases still pending were transferred to the Tax Court for disposition and the Division of Tax Appeals was terminated.

During the six month transition period the Tax Court received and inventoried the cases transferred from the Division of Tax Appeals and began the disposition of these cases. Eighteen Appellate Division cases which had been remanded to the Division of Tax Appeals were taken over by the Tax Court and have now largely been completed.

Statutes, Court Rules, Forms and Procedures

The effective operation of the Court required the formulation of procedures which were simple and understandable. At the outset the Legislature amended the myriad of time limits in the tax statutes and substituted one statute providing that the time period within which to file a complaint with the Tax Court to contest actions of the county tax board be 45 days from the service of such action, and the time period within which to contest actions of the Director of Taxation or other governmental official administering tax laws be 90 days from the date of service of notice of such action. Further simplification was obtained by legislative amendments of procedures set forth in Title 54, Section 2 and by amendment of N.J.S.A. 2A:83-1 to adapt this statute on expert testimony to the new Court.

The intention of the Legislature to provide a simple procedure for the review of state and local tax determinations was implemented by the Supreme Court's adoption of a new Part VIII of the Rules Governing the Courts of the State of New Jersey. This Part established procedures for practice before the Tax Court. These procedures were patterned after those of the Superior Court, enabling attorneys experienced in trial practice before the Superior Court to adapt quickly to the procedures in the Tax Court. The rules simplified the procedure both for taxpayers represented by attorneys and unrepresented taxpayers. Simplification of prior procedure included the right to combine several contested assessments in one complaint if the properties are contiguous and in common ownership. Responsive pleadings are permitted but are not required. Forms for the various types of complaints heard by the Court are not required to be used, but provide a guide for attorneys and are available for distribution to unrepresented taxpayers.

Procedures were established for settlements, withdrawals and Freeze Act applications. It was determined that, for purposes of uniformity, all final dispositions of the Tax Court would be in the form of judgments prepared by the Clerk's Office. Procedures for the processing of 1,000 to 1,500 final dispositions per month by the Clerk's Office were established. Electronic processing of complaints and a new open-shelf color-coded filing system were adopted. Provision was made for noticing, case tracking and the collection of statistics for use in the management of the Court.

A plan was devised for the assignment of cases to judges. The Court utilizes a calendar system based upon a six-week cycle -- two weeks devoted to settlement conferences and pretrial conferences and four weeks devoted to trials. Cases are assigned based upon location of taxpayers, attorneys and the subject matter of the action. The oldest cases are assigned first. The 25,000 case backlog included cases filed with the Division of Tax Appeals dating back to the late 1960s. By August 31, 1980 most actions instituted prior to 1976 had been disposed of or assigned for hearing.

Tax Court Statistics

There is appended to this report statistical information on the Tax Court since its inception on July 1, 1979. The Judiciary maintains its statistical information on a court year basis. The court year begins September 1 and ends August 31 following. The statistics appended include the record of Tax Court activity separately for the two-month period ending August 31, 1979 and the one year period ending August 31, 1980. This permits the statistics for the court year ended August 31, 1980 to be shown on a basis compatible with the statistics for the entire court system.

On July 1, 1979 the Tax Court began its existence with approximately

25,000 cases transferrred from the Division of Tax Appeals. In July and August 1979, 276 new complaints were filed. In September of 1979 the Court began hearing cases. Approximately 6,000 new cases were filed during the 1979 - 1980 court year. Although the Court was not at full strength for the entire year, approximately 11,500 cases were disposed of by August 31, 1980.

It is anticipated that the balance of the pre-1979 cases will be disposed of or assigned for hearing by August 31, 1981. It is further anticipated that the Court will begin hearing cases on a current basis at that time.

Standards of Assessment and Legal Principles Utilized by the Tax Court

Local property tax cases generally involve a determination of the value of the property for assessment purposes. Value for assessing purposes is fair market value-the price that would be paid by a willing purchaser and that a willing seller would accept, neither being compelled to buy nor sell. It is the fair market value standard that is utilized to achieve the uniformity in assessment that is required by the New Jersey Constitution. The Court applies the valuation principles required by the statute and the Constitution and determines fair market value by application of such of the three approaches to value as may be presented in evidence. These three approaches are: (1) the market approach, which estimates value based upon comparable sales, (2) the cost approach, which estimates value based on construction cost less depreciation and (3) the income approach, which estimates value based upon capitalization of the income stream produced by the property. Local property tax cases sometimes involve a claim of discrimination. In such cases the Court has followed the legal principles established by the Supreme Court in *In re Appeals of Kents 2124 Atlantic Ave., Inc.*, 34 *N.J.* 21 (1961) and the Supreme Court decisions dealing with discrimination which followed.

Recommendations for Legislative Changes

The Court's initial experience with the system of review of state and local tax disputes indicates that generally the system functions satisfactorily. However, there are shortcomings in the system which can be improved. Title 54 should be generally revised and simplified. Most but not all of the tax statutes are in this title. Revision could incorporate those tax statutes not included in this title and eliminate surplusage. For example, the voluminous procedural provisions relating to railroad taxes could be reduced. The procedural provisions from each separate state tax act could be combined in the State Tax Uniform Procedure Law (*N.J.S.A.* 54:50-1, *et seq.*). This revision would also provide an opportunity to consider simplification of the review procedures in the local property tax area and elimination of inequities.

There are changes that can be considered at the present time, short of a complete revision of Title 54. These are:

1. A Technical Changes Act to update the statutes by deleting all references to the Board of Tax Appeals and the Division of Tax Appeals and make such other procedural changes as are necessary to accommodate present Tax Court procedure.

2. Clarification of the provision for direct appeal to the Tax Court in local property tax cases where the assessment exceeds $750,000 because the provision may not apply to added or omitted assessment matters. (N.J.S.A. 54:3-21)

3. Clarification of the real property-personal property distinction as to residential, commercial and industrial property, as well as special types of property such as pipelines.

4. Revision of the procedure for the contest of local property tax assessments once a complaint has been filed for one year, to enable the Court to hear and decide all subsequent years without the necessity of filing separate complaints for those years. A solution may lie in the area of assessment every two years or every three years, instead of every year. The effect of inflation upon property values compounds the problem of complying with the requirement of assessment each year. A discussion of this problem should also include consideration of a revision of the Freeze Act (N.J.S.A. 54:2-43 and N.J.S.A. 54:3-26).

Conclusion

The first full year of operation of the Tax Court has been constructive and productive. The Court is now functioning satisfactorily. Cases are being processed and disposed of with reasonable dispatch. There is room for improvement. The objectives of the Court have not been fully met. The Court continues to seek to simplify and expedite its work in an effort to achieve a better system of guidance and review for taxpayers and tax administrators.

*By statute, a municipal court judge must be an attorney at law of this state or have held the office of municipal court magistrate, recorder, police judge or justice of the peace on January 1, 1952. While all of these offices, except that of municipal court judge, have been abolished, non-attorneys continue to serve as judges of the municipal courts because they held one of the specified offices on January 1, 1952.

(1) Includes proceedings in the County District Courts of Bergen, Hudson, Ocean, Sussex and Warren Counties which exercised concurrent jurisdiction during the court year. Also includes proceedings in the Palisades Interstate Park Police Court in Bergen County.

(2) "Hours on Bench" are reported monthly to the nearest hour, therefore the yearly total in some courts may be "0" if no full hours were reported for any month.

(3) If the offense charged constitutes a minor neighborhood or domestic dispute, a notice may issue to the person or persons charged, requesting their appearance before the court, or such person designated by the court and approved by the Assignment Judge, in order to determine whether or not a complaint should issue or other appropriate action be taken. Rule 7:3-2. Not applicable in traffic cases.

(4) Rule 7:2 The provisions of R. 3:2 (complaint), R. 3:3 (warrant or summons upon complaint) and R. 3:4-1, 3:4-2, 3:4-3 and 3:4-5 (proceedings before the committing judge) are applicable to the municipal and county district courts in respect of indictable offenses; the provisions of R. 3:4-4 are applicable to such courts in proceedings under the Uniform Fresh Pursuit Law.

(5) N.J.S.A. 2A:8-22 confers jurisdiction on the municipal courts to try specific cases involving crimes occurring within their territorial jurisdiction provided defendant first executes in writing a waiver of indictment and trial by jury.

(6) Dismissals under Rule 3:28 (Pretrial Intervention Programs) and N.J.S.A. 24:21-27(b) (Dismissals after conditional discharge - controlled dangerous substance abuse only).

(7) Defendants placed on probation in accordance with Rule 3:21-7. Does not include suspended dispositions or conditional discharges under N.J.S.A. 24:21-27 or Pretrial Intervention Programs, R. 3:28.

(8) Not including those revoked or suspended by the Director of the N.J. Division of Motor Vehicles, but does include revocations and suspensions in disorderly persons and other violations as provided by statutes.

(9) Does not include conditional discharges in cases involving controlled dangerous substance abuse, (N.J.S.A. 24:21-27(b)) or Pretrial Intervention Programs, R. 3:28. The count here is the number of sentences suspended, irrespective of the number of persons, complaints or charges involved.

MUNICIPAL COURT DEFENDANTS STATUS REPORT

The column headings of the tables that follow are described below:

> *(The tables refer to defendants whose municipal court trials were completed this year - Status at commencement of trial. Columns 5 et seq deal with Municipal Court trials whereas columns 1 & 3 also include indictable offenses.)*

"COMPLAINT/SUMMONSES FILED AND COMPLAINT/WARRANTS FILED -- INDICTABLE OFFENSES AND NON-INDICTABLE OFFENSES."

A summons may issue in lieu of a warrant if the person taking the complaint has reason to believe that the defendant will appear. R. 7:3-1(d). It is the policy of the Supreme Court that wherever appropriate a complaint/summons shall issue instead of a complaint/warrant.

"BAIL OR JAIL STATUS OF DEFENDANTS AT BEGINNING OF TRIAL."

The unit of the count is the defendant.

In the section "Released on Own Recognizance" the reporting instructions specify that it should include only those defendants who were actually arrested, held, and then released after the prescribed ROR procedures. (Includes a recognizance form signed and executed before the person authorized to take bail). It is not intended to include defendants on whom summonses were served (traffic or other) without arrest. It should be noted, however, that for some courts it is apparent that the reporting instructions may not have been followed in all instances.

"NUMBER OF DEFENDANTS ON NON-INDICTABLE OFFENSES REPRESENTED BY ASSIGNED COUNSEL OR REFERRED TO THE PUBLIC DEFENDER" and "NUMBER OF DEFENDANTS ON INDICTABLE OFFENSES REFERRED TO THE PUBLIC DEFENDER."

The number of assignments or referrals is reported, whether or not the defendant had been so represented. The data reported herein is on trials that had been completed during the **court year.**

STATISTICAL DATA
ON THE
COST OF OPERATING THE COURTS

COMMENTARY

COST OF OPERATING THE COURTS

The information reported here has been extracted from audit reports on file with the Division of Local Government Services and from reports to the Administrative Office of the Courts. It should be noted that the data may not be altogether accurate, primarily because of lack of uniformity in State, County and Municipal accounting procedures and also because generally, no allocation is made to using departments for overhead and capital costs.

As shown by Fiscal Chart A, there has been a steady increase since 1961 (the first year for which comparable data was collected and reported) in both expenditures and revenues for the courts at all levels. Total expenditures for the courts by the State, counties and municipalities have increased 518% from $19,954,301 in 1961 to $123,274,110 in 1979. Revenues have increased 443% from $17,546,851 in 1961 to $95,335,931 in 1979. Of the total expenditures of $123,274,110 for 1979, 24.2% was borne by the State, 60.7% by the counties, and 15.1% by the municipalities.

PROBATION SERVICES

Introduction

The 1979-1980 annual report on probation services presents twenty-two pages of statistical tables preceded by narrative summaries that highlight noteworthy findings. Occasional time-trend (longitudinal) comparisons are provided. The tables are ordered according to probation service functions in six alphabetic services, A through F. Series A reports three tables that describe probation personnel, series B entails six tables which outline the work volume of probation services, and series C is comprised of three tables that delineate funding sources, appropriations and collection activities. The D series sets forth three tables pertaining to volunteers in probation services. Series E gives an account in four tables of probation training programs. The last series, tables F-1 through F-3, registers the work volume and financial aspect of the Title IV-D program.

PERSONNEL

The total number of probation employees operating at the county level in the 1979-80 court year grew by 2.2% over the former court year. On a longitudinal perspective of five years (since court year 1975-1976), the number of personnel has increased by 32.0%.

The percentage of change in number of personnel over the court year varied considerably from county to county. On one end of the spectrum Passaic County suffered a net loss of 11.4%. On the other end, Salem County enjoyed a net staff increase of 11.1%. The table below shows the ranges of change in county-level probation personnel since the court year 1978-1979.

The percentage of females serving in permanent professional probation officer positions rose slightly over the former court year. While 28.8% of the permanent professional positions were filled by females in court year 1978-1979, the 1979-1980 court year ended with 31.1% of the permanent professional positions being filled by women. The 2.3% increase is consistent with a trend that has been noted since these statistics were first collected in court year 1972-1973. Females at that time constituted 22% of the permanent professional work force. Each year since that time the average of the annual rates of increase of the percentage of female professional personnel has been 1.3%, while the average annual increase in the total number of females in permanent professional positions has been 12.1%.

WORK VOLUME

Investigations

1. Criminal and Juvenile Investigations. Some 18,658 adult presentence investigations were conducted for the Superior and Municipal Courts during court year 1979-80. Since 18,637 adult presentence investigations were conducted in the 1978-1979 court year, the overall change is negligible (+.1%). Usage of the long form, which occurs more regularly in the Superior Courts, remained essentially the same (+.01%) as last year while employment of the short form, used more regularly for less serious offenders and/or cases in the Municipal Courts, increased .7%.

By contrast, the number of predisposition reports for juveniles declined from the previous year. 2.9% fewer predisposition reports were completed this court year over last court year. Compared to the 1975-1976 statistic, the number of predisposition reports has increased by 9.7% while the number of presentence investigations has depreciated by 14.9%.

2. Chancery Custody Investigations. The number of chancery custody investigations increased by .3%. Still, over a five year period the number of chancery custody investigations has grown by 29.0%, the highest growth rate for all investigation types over that period of time.

3. Domestic Relations Investigations. Investigations in Domestic Relations suffered the largest decrease of all investigation types during this court year. The reduction amounted to 17.2% of the Domestic Relations investigations completed. This is the third consecutive year a net loss has occurred in this area. It amounts to a decrease of 69.8% from the number of investigations conducted in court year 1975-1976. Development of

domestic relations intake services throughout the state may be in large part responsible for this decrease.

4. Bail/ROR Investigations. A total of 20,422 Bail/ROR investigations, an increase of 7.6%, was conducted this court year. When this year's figures are compared to those of five years ago, an increase of 1.5% in Bail/ROR investigations is discovered.

5. Grand Jury Investigations. Only two of twenty-one counties (Essex and Passaic) perform Grand Jury investigations. The 2,956 investigations represent a decrease of 7.7% over last year.

6. Interstate Compact Investigations. These investigations are conducted upon petition by other states. 435 were conducted this year, which is 1.8% fewer than during court year 1978-1979. Percentages of change for these investigations vary widely from year to year and no trends seem to have emerged. There has been a decrease of 6.9% in the number of Interstate Compact investigations conducted when compared to court year 1975-1976.

7. Other Investigations. This category includes all split investigations (county, out-of-county, and out-of-state) as well as investigations relating to underage marriage, consent or informal adjustment, financial, clemency, juvenile detention, work release, public defender applications, and additional investigations that do not clearly apply to any other category. 6,656 of these investigation types were conducted resulting in a net decline of 11.0% over the prior court year. Furthermore, there has been a decrease of 50.8% in the number of unclassified investigations since court year 1975-1976.

The total number of persons serving probation or county parole (under N.J.S.A. 30:4-123.35) terms at the close of the court year was 43,246, a decrease of 3.6% over last year's revised figure of 44,847 probationers. The number of adults actually decreased from 33,417 to 32,423 resulting in a -3.0% change. Meanwhile, the number of juveniles on probation decreased at the rate of 5.3% to a total of 10,823.

A closer look at changes over the previous court year in adult and juvenile caseloads by county yields interesting variations. In the area of adult supervision, caseloads increased in 14 counties and decreased in 7. The largest increase occurred in Warren County (up 38.9%) while the county with the largest percentage loss was Mercer (down 29.7%). The range of percent of gain or loss for all other counties stretched from -24.0% to +34.3%. Finally, the average percentage of change for the counties was +5.0%.

Caseload increases in the juvenile area reflect a different pattern in that they increased in only 8 counties and decreased in 13. The marked contrast comes in the much less homogeneous distribution of changes from county to county. Hunterdon County's juvenile caseload expanded by 52.1%, and Monmouth County's increased by 51.8%. On the negative side of the ledger, Bergen County's juvenile caseload decreased by 25.7% while Sussex County's caseload was reduced by 25.5%. Finally, the average percentage of growth per county was .1%, substantially lower than the average rate of +5.0% for adults.

* The statistics for this and the subsequent table were computed as follows. The revised total number of persons remaining under probation supervision at the end of court year 1975-1976 was compared with the total number of persons remaining under probation supervision at the end of court year 1979-1980. Then the percentage of change was computed.

While adult cases increased by 7.5% from court year 1975-1976 to 1979-1980, the number of juvenile cases decreased by 3.9%. Nine counties experienced increases and the other twelve decreased. Two counties grew remarkably compared to all other counties. Hunterdon County's juvenile cases swelled by 58.9% while Morris County's juvenile probationers increased by 50.7%. The county with the largest decrease was Gloucester, with a loss of 35.1%, followed closely by Middlesex County with a 33.4% decrease. The next table sets forth the changes for all counties over the five years.

Transfers and Terminations

The total number of probationers (adults and juveniles) who transferred across county or state jurisdictions for supervision during the 1979-1980 court year was 3,670. This volume of transfer cases is slightly lower (-4.3%) than that of the preceding court year.

Some 27,788 persons were discharged from probation during the court year, an increase of 8.8% over court year 1978-1979. 69.1% of this year's terminations resulted from normal completion of probation terms. The remaining 30.9% were discharged as a result of a violation of probation conditions, a new offense, death, absconding and/or other reasons.

Supervised Collections

Table B-6 presents a statistical overview of the work volume pertaining to persons under court orders for payment of support, alimony, court costs, fines, and/or restitutions. There were 132,342 persons under such court orders at the close of the court year, an increase of 5.2% over the former court year. When this figure is compared to the cases of five years before, one finds an expansion of supervised collection cases of 40.4%.

APPROPRIATIONS

The counties appropriated a grand total of $37,302,509 for probation services in calendar year 1980. This sum constitutes an increase over 1979 appropriations of

10.5%. When it is compared to 1976 appropriations, that sum represents an increase of 58.0%.

The appropriations by the 21 counties for probation services ranged widely. Camden County increased its appropriations by 33.2% followed closely by Ocean County at 32.9% while Salem County reduced its appropriations by 6.6%. The average county appropriation increased by 11.4% over the last year.

County appropriations must be viewed in the context of all funding sources together. When SLEPA and CETA resources are combined with county appropriations for 1980 a statewide increase of 7.9% is discovered in comparison to the total 1979 appropriations and resources. Meanwhile, all county probation departments together reported an average increase of 8.4% in total appropriations. The range for total appropriations was from a decrease of 5.7% in Cumberland County to an increase of 27.2% in Camden County.

The appropriations statistics for SLEPA-funded projects are again reported independently of all other appropriations. SLEPA approved grants in 17 counties for a total of $741,284. Four counties received no SLEPA grants during this court year. Burlington, Camden and Middlesex Counties received grants totaling $137,749 from the Law Enforcement Assistance Administration to develop a juvenile restitution program. In addition, Camden County received $6,000 from the National Institute of Corrections to provide technical assistance in research and system cost-benefit analyses. Mercer County received $5,000 from the Department of Human Services to provide emergency services to indigent juveniles.

The Comprehensive Employment Training Act (CETA) funding provided a total of $711,673 for 12 participating county probation departments. This funding represents a 45.3% decrease from the $1,301,976 allocated during 1979.

SUPERVISED COLLECTIONS

The sum of monies collected and disbursed by the county probation departments increased by 9.6% over the former court year. This year's collections amounted to $121,008,266.01. Comparing that amount with the figure for court year 1975-1976, we note that over five years the total of supervised collections has increased by 55.0%.

All counties have grown in their collection activities over the past five years but the rates of growth vary widely. At one end of the spectrum Bergen County grew by 23.6% followed closely by Hudson County at 23.1%. At the other end, eleven counties grew by over 50%, Essex experiencing the largest percentage of growth with 120.0%. The only other department experiencing a growth over 100% was Salem County at 102.6%.

Support and alimony payments account for 96.4% of all collections. These monies, which amounted to $116,665,672.56 in this court year, are ordered by the courts to be collected and disbursed by the county probation departments. These monies have been disbursed to families or welfare agencies, resulting in major social benefits for many New Jersey families. In many instances this constitutes no small savings to the taxpayer by way of deferred public support.

During this court year fines of $2,597,956.28 were collected, a slight decrease of 1.4% from the previous court year.

During this court year the amount of restitution increased by 7.2% to $1,659,833.53. When this year's restitution figures are compared with those of five years ago, one finds a tremendous increase of 140.6%. This remarkable growth exhibits another way in which the courts, via probation, work to promote the welfare of New Jersey's citizenry; more and more is being channeled to the victims of crimes.

SPECIALIZED PROBATION PROJECTS

Probation projects funded by the State Law Enforcement Planning Agency and the Law Enforcement Assistance Administration (LEAA) for all or part of the 1979-1980 court year are identified on Table C-3. The total expenditure on these special programs amounted to $1,048,081, a 16.3% decrease over the prior court year and a 26.5% decrease over court year 1975-1976. Most of the federal dollars have been invested in attempts to render certain services on a uniform, statewide basis. These services include Pretrial Intervention, Intake, Juvenile Restitution, and Volunteers. The remaining projects have been designed and implemented by various counties out of their own creative responses to unique needs and opportunities.

VOLUNTEERS IN PROBATION

During the 1979-1980 court year, Volunteers In Probation Programs continued to operate in all counties except Sussex and Warren. There were changes in only two counties of persons directing the Volunteer Program during the 1979-1980 court year, as compared to changes in nine counties during the 1978-1979 court year. This allowed for a greater emphasis on management and skills training for Volunteer Program Directors and their paid staff.

One-week residential training programs for Volunteer Program Directors and staff were conducted during September, 1979 and June, 1980. The programs provided training in organizational behavior and administration, needs assessment, management styles, and techniques in recruitment, screening, interviewing, and training volunteers. In that Juvenile Conference Committee members are community volunteers and need to be recruited, screened, and supervised in a way similar to that of Volunteers in Probation, training was available to those staff members of Juvenile Intake Programs who were responsible for Juvenile Conference Committee recruitment and supervision.

During the Fall of 1979, the Administrative Office of the Courts sponsored three regional Volunteer Institutes for Volunteers in Probation. The Institutes provided an opportunity for the Judiciary and Probation Services to express support and recognition to volunteers for the work they have done over the past year, and the opportunity to provide in-service skills training for volunteers. Each regional Institute attracted approximately 150 volunteers, plus volunteer trainers and paid staff of the volunteer programs.

Recruitment of volunteers has become a major concern of the county Volunteers in Probation Programs and is a concern that is recognized nationally. Community members are not volunteering as frequently as in the past in part because of the economy--it is becoming more expensive to be a volunteer and the persons most likely to volunteer, e.g., the college student or the housewife, must now devote more time to finding and keeping paid positions. In addition, there are a growing number of agencies and programs vying for the same volunteers. Volunteers can be more selective in the type of work they perform, thus, Volunteers in Probation Programs must develop marketing strategies for selling their particular programs. During the 1979-1980 court year, there was a total of 586 persons completing pre-service training; this is a decrease of 27.4% from one year ago.

The statewide monthly average of the number of persons attending in-service training was 135. In-service training includes sessions at which volunteers discuss various problems and experiences and/or explore counseling techniques in problem areas such as alcohol, drug abuse, truancy, child abuse or sexuality.

Volunteer assignments decreased 9.5% from 2,830 one year ago to 2,561 this court year. In addition, the decrease in the monthly average total number of volunteer assignments was negligible.

Although the total number of volunteer assignments decreased during the court year, more persons remained on supervision as of August 31, 1980, than as of August 31, 1979. Probation Table D-2 shows a breakdown of discharges of Volunteers in Probation Program clientele, which includes probationers, Juvenile Conference Committee referrals and agency referrals. Of the discharges, there was an increase of 37.5% in violations of probation, and a decrease of 16% in the interstate and county transfers. Discharges for new offenses decreased by 71% and other discharges decreased by 37.7%.

Probation Table D-3 shows a breakdown of types of persons supervised within the Volunteers in Probation Programs. There was a 15.8% decrease in the number of Juveniles in Need of Supervision (JINS) under probation supervision by volunteers at the close of the 1979-80 court year in comparison to the previous court year. The number of Juvenile Delinquents (JDs) under probation supervision by volunteers at the close of the 1979-80 court year decreased by 30.8% in comparison to the previous court year. This is due in large part to the many diversionary programs which are being made available to the courts for JINS and JD supervision. There was an increase of 29.6% in the number of adults under probation supervision by volunteers at the close of the court year in comparison to one year ago as well as a 61% increase in "others" being supervised during the same time period. These increases are due in part to an increase in the number of programs developing adult components and an increase in the number of referrals from outside probation, e.g., juvenile intake, PTI, etc., being accepted by the programs.

The Volunteer Services Unit provided technical assistance, monitored the nineteen county Volunteers in Probation Programs, and provided consultation services and assistance in developing new volunteer programs. Included in the plans for the 1980-1981 court year are a 1980 Volunteer Institute for paid and volunteer staff of Volunteers in Probation Programs and a greater emphasis on public relations and recruitment techniques for volunteer programs. In addition, further review of innovative uses of volunteers for service to probation and the courts will continue.

PROBATION TRAINING

Probation Training provides a comprehensive in-service training program to the twenty-one county probation departments. During the court year ending August 31, 1980, 20,939 staff hours of training were completed in a variety of courses ranging from basic orientation for new staff members to more specialized courses in counseling, crisis intervention and management techniques. In total, 774 staff members participated in training sponsored by the Administrative Office of the Courts.

Under the Supreme Court mandate of training for new probation staff, Orientation courses for both probation officers and investigators were completed by 165 staff at the state level and by 180 at the county level for a total of 345 staff members.

Skills and Methods in Probation Practice courses were offered four times during the year by Probation Training and 83 staff completed the course.

Supervisors' training was completed by 47 staff in two sections: one for newly appointed supervisors and the other for experienced supervisors. Also during the year, an evaluation research program was completed under funding from the National Institute of Corrections to provide follow-up training to the supervisors' course. The final evaluation from that grant concluded that the supervisors' training program is a valid, well-run and useful program for probation supervisors.

Under a Federal grant entitled, "Improved Training for Juvenile Court Counselors," Probation Training provided additional support of group and individual counseling courses and activities. 54 staff were trained in group counseling techniques and a staff person was assigned to provide follow-up activities to the basic training courses. In addition, 16 staff completed the course, Counseling Techniques for Probation Officers.

Additionally, a new training course for officers who conduct custody investigations was developed in conjunction with Rutgers University and offered for the first time. 20 officers completed this course. Federal monies were also used to send 25 staff members to the Rutgers University Summer School of Alcohol Studies.

The Juvenile Probation Institute of Rutgers University was attended by 19 probation officers and an additional 28 staff members attended Forum on Adolescence, Sexuality and Related Concerns.

In conjunction with the Coordinator of Volunteers in Probation, Probation Training additionally offered two training programs for volunteer managers with a total of 31 staff attending. During 1980, a course was offered for the first time specifically for probation officers doing family counseling with 22 staff members completing the course.

In addition to direct course offerings, Probation Training made it possible for probation staff to attend courses at the Training and Education Center of the New Jersey Department of Health, Division of Alcohol, Narcotic and Drug Abuse. Eighty-six staff enrolled in a variety of courses offered at the center.

Under the sponsorship of Probation Training, two county level training staff completed the Basic Training for Trainers course at Rutgers Graduate School of Social Work. This is part of the continuing effort to develop high caliber training staff at the county level to complement state staff.

The Probation Training Advisory Committee has continued to provide significant input from the field for planning at Probation Training. Composed of representatives from all departments, the committee serves as a clearinghouse for training information, as a sounding board for, as well as a source of, new ideas and programs, and as an advisory body to the staff of Probation Training.

Probation Training has continued to support county level training endeavors by supplying materials and manpower to whatever extent feasible. This past court year saw a decrease in the number of hours completed at the county level for the second year in a row. This may reflect continued scarce resources. The decrease noted was accompanied by a slight decrease in the number of training hours in the Administrative Office of the Courts' sponsored program.

Probation Training has continued to meet its goals of helping staff to attain the knowledge, skills and attitudes required for exemplary job performance and of involving all levels of staff in some type of regular training activity. Significant progress was made during the year in the area of increased compliance with mandated course requirements, increased frequency of course offerings and the development of new programs to address specific needs. One new program was the development of a research project on the Presentence Investigation Report, which was funded by the Law Enforcement Assistance Administration as part of a national program. This project will include a training component for probation staff in the areas of presentence investigation and reports to the court. It will operate as a separate and distinct program from Probation Training.

During 1980 Probation Training has received a $39,890 grant from the National Institute of Corrections to conduct Case Management Training for probation departments. Developed in conjunction with the School of Criminal Justice of Rutgers University, the project will utilize staff and resources from Rutgers and from Probation Services to provide training and technical assistance services for ten probation departments to develop objectives-based case management (OBCM) systems for their operation.

The OBCM development process will allow each department to prepare a case management system tailored to its own specific needs while maintaining uniformity across the state system. The case management system will assist departments with management of cases at three levels: (1) for the caseload officer, by providing techniques for managing individual cases and the entire caseload; (2) for the supervisor, by providing a means for monitoring staff and their activities; (3) and for the administrator, by defining and clarifying purpose and procedure for handling cases, by providing information on these cases and by structuring a feedback mechanism for accountability at all levels of operation.

With the assistance of Rutgers' staff and their consultants, the requisite skills and knowledge will be developed by Probation Training staff to carry on case management activities as a regular service after the termination of the grant.

CHILD SUPPORT ENFORCEMENT

The number of child support enforcement cases not receiving Aid to Families with Dependent Children (AFDC) increased 4.9% over last court year to 63,177. There was considerable variation in the changes on a county-by-county basis. Morris County experienced the largest decrease at 7.7%. Altogether, five counties experienced decreases and the other sixteen increases. The largest increase occurred in Hunterdon County at 24.3%.

By contrast the number of cases receiving AFDC assistance increased statewide by 10.4%. Only one county experienced a decrease (Middlesex at -1.1%) while everyone else's caseload size increased. Eight counties grew by from 1 to 10%, and twelve counties grew by from 10.1% to 20%.

Expenditures in this area increased statewide at 18.1% while reimbursements increased by 93.5%. This marked increase resulted mainly from the Congressional action extending the commitment to reimburse the states for the costs incurred in handling non-AFDC cases.

When we look at expenditures alone, all counties but three (Hunterdon down 14.6%, Sussex down 4.2% and Cape May down .3%) incurred larger expenditures over the prior court year. Five counties increased at between 1 and 10% and five counties at between 10.1 and 20%. Meanwhile, Burlington, Bergen, Passaic, Atlantic and Cumberland Counties grew at rates of 24.3%, 25.4%, 25.5%, 31.7% and 35.6% respectively. Finally, the three counties with the largest increase in expenditures were Monmouth (at 60.4%), Union (at 48.0%), and Gloucester (at 42.3%) Counties.

Every county experienced an increase in the amount of reimbursement over last court year. The table below provides the specific percentage increase by county.

Percent Change in the Amount of Reimbursement by County

% Change	County	% Change	County
+237.1	Monmouth	+109.7	Atlantic

+112.5	Middlesex	+ 66.7	Camden
+111.9	Salem	+ 59.5	Hunterdon
		+ 30.6	Essex

Total federal reimbursement under Title IV-D of the Social Security Act (including the twenty-one county probation departments and the Administrative Office of the Courts) amounted to $10,841,011.86, a 93.5% increase from the last court year.

COLLECTIVE BARGAINING IN PROBATION

Pursuant to the directive of the Supreme Court, the Assistant Director for Probation and the Chief of the Probation Administrative Management System (PAMS) have conducted labor negotiations with probation bargaining units on behalf of the Superior Court Judges since January 1976. Their bargaining activities include:

(1) The development of policy recommendations;

(2) On-site negotiations;

(3) Contract demand analyses;

(4) Representation of the judiciary in Public Employment Relations Commission meetings and hearings, e.g., mediation, fact-finding, unit representation, and unfair labor practice hearings;

(5) Contract drafting;

(6) Representation of the judiciary at Freeholder meetings; and,

(7) Preparation of annual bargaining analysis reports.

By August 31, 1980, there were 27 distinct probation officer employee bargaining units. This constitutes an increase in the total number of such units by one over the prior court year as a result of the development of one supervision bargaining unit.

Additionally, Probation Services staff have become increasingly active in representing the Judiciary before the Public Employment Relations Commission on cases involving judicial employees other than probation officers. Furthermore, direct labor relations assistance to local judicial administrators has increased as they commence the negotiations process with these non-probation officer judicial employees. It is anticipated that additional effort in this area will be devoted to this during the coming court year.

*** Includes an appropriation from Law Enforcement Assistance Administration and the National Institute of Corrections.

**** Appropriation from the Department of Human Services.

***** A portion of this amount represents appropriations utilized for materials and supplies.

NOTE: County appropriations do not reflect the total operating expenses of all county probation departments since some costs such as postage, office space, janitorial services and utilities may be provided by other sources.

NOTE: If more than a single grant was effective during the court year, the grant of longest duration was utilized.

NOTE: Total county appropriations for one year ago differ from the 1978-79 Annual Report due to a statistical update.

* Statistics on county administered probation training programs are collected on a monthly basis; therefore, a staff member participating in more than one program or in a program lasting more than one month would be counted once for each month and each training program. As a result, the number of hours of training is cumulative but the number of persons trained is not.

** In calculating the monthly average number of persons involved in training, fractions are rounded to the next highest number to reflect whole persons. In calculating the monthly average number of hours, fractions are rounded to the nearest whole number.
